

**MSD MEMBERSHIP
GEOGRAPHIC AFFINITY GROUP DISTRIBUTION
(Geographic Affinity Group Representatives
are Members of the MSD Council)**

MSD's governance structure established in October 2011 takes into account representation from eight defined geographic areas within the state, each one having representation on the Council that has been formed. Physicians are identified as a member of a geographic group by the zip code of their primary office address. For those who are not practicing and, therefore, do not have an office address, the home address zip code is used for placement.

WILMINGTON GEOGRAPHIC AFFINITY GROUP
